Original
E ACTION: CIRCULAR 1075Info
SS SUBJECT: US Ratification of International Coffee AgreementSP As of Dec 13, US had not deposited instrument of ratification of
L International Coffee Agreement. Agreement expires Dec 31 if US fails
H to ratify. Post may therefore be queried US intentions.AF Following is status US ratification process. In May 1963, Senate
ARA gave advice and consent to ratification. US entered agreement as
EUR provisional member but did not deposit instrument of ratification for
FE two reasons: (1) implementing legislation necessary to enable US
NEA fulfill obligations under agreement, in particular to control imports
TO from non-members if necessary and to require certificates of origin on
STR all coffee imports; and (2) Executive Branch assured Senate we would
ATD not make our participation in Agreement "effective" until implementing
P legislation approved both Houses Congress.USTA Between May and December Administration expected Congress approve
NSC implementing legislation. House Ways and Means Committee occupied
TNR with tax bill and therefore delayed consideration coffee until late
NSA October. House approved implementing legislation Nov. 14 which then
AGR referred to Senate Finance Committee.

bill.
early in new year after completion its work on tax/ Therefore, hearings
on coffee scheduled by Finance Committee have been cancelled.

If queried, you should give assurance US continues support
International Coffee Agreement. No change in US position. Administration
consulting Congress on steps we hope will permit US remain in Agreement
pending Senate consideration of legislation early next year.

FYI. Administration hopes to make gentlemen's Agreement with
Congressional leadership permitting US deposit instrument of ratification
now -- without implementing legislation -- on clear understanding
legislation will be sought early in new year, and US will not control
imports or require certificates of origin -- actions for which implementing
legislation required -- until its passage. Coffee Council has already
decided certificates of origin not required until April 1, 1964, and control
of imports cannot be effective until certificates become effective. Therefore,
Administration does not need to exercise powers authorized by implementing
legislation until about April 1964. END FYI.

Post will be informed final decision when made.

BALI.

End.
